

The Fifth International Conference on Cell Therapy

일시 : 2011년 11월 1일 (화) 08:30~17:50

장소 : 그랜드 힐튼 호텔 (홍은동)

Plenary Lectures (09:10 ~ 12:30)

Distinct metabolic flow enables large scale purification of cardiomyocytes from pluripotent stem cell-derivatives

Keiichi Fukuda, M.D., Ph.D. (Keio University, Japan)

Reconstituting growth and development of pancreatic progenitor cells

Seung K Kim, Ph.D. (Stanford University, USA)

Pluripotent Human Stem Cells : Cardiogenesis and Cardiac Repair

Charles E Murry, M.D., Ph.D. (University of Washington, USA)

Regulation of MicroRNA

V. Narry Kim, Ph.D. (Seoul National University, Korea)

Adoptive T Cell Therapy of Cancer -

A New Era in Combinational Strategies

Cassian Yee, M.D., Ph.D. (University of Washington, USA)

Symposia (13:30~17:50)

Reprogramming and Stem Cell Therapy I (Room A)

Reprogramming and Stem Cell Therapy II (Room A)

Cancer Immune Cell Therapy I (Room B)

Cancer Immune Cell Therapy II (Room B)

Cell Therapy for Diabetes (Room C)

Cell Therapy in Orthopedics (Room C)

주최
