CALL FOR ABSTRACTS

The Research Committee of the APSAVD 2018 Congress invites researchers to submit abstracts to be presented during the 2018 APSAVD Scientific Sessions to on February 27 to March 01, 2018 in Iloilo City, Philippines. Submitted abstracts will be presented for the poster hall and oral abstract presentations at the meeting. All accepted abstracts will also be posted on the 2018 APSAVD website.

All abstracts must be submitted online via the PLAS abstract submission website at www.apsvd2018.org or through email via the PLAS secretariat, plas.secretariat@gmail.com Download, fill and upload the abstract form from the website.

ABSTRACT GUIDELINES

Content Guidelines

Abstracts can only be accepted electronically and must adhere to the following guidelines:

- Abstracts are limited to 400 words.
- Submitted abstracts should fall into one of three presentation types: Case Studies/case report, Original Research(original article) , or Clinical Trial
- Abstracts must be divided into sections: Title, Background/synopsis, Objectives/Purpose, Methods, Results, and Conclusion that states the importance and potential implications of the observations.
- Abstracts must be proofread carefully to avoid errors before submission.
- Abstracts must contain generic drug names only.
- Abstracts must be submitted in clear English with accurate grammar and spelling of a quality suitable for publication.
- Lead and secondary authors must disclose all financial relationships.
- Any funding support for the research must be disclosed.
- Encore research is eligible for submission but the original date and location of presentation of the research must be disclosed in the application.

Checklist

The purpose of the abstract is to define the precise subject of the presentation to an audience. Below you will find a checklist for abstract preparation. All abstracts are considered equally for selection, and the quality of the abstract is the single most important factor in the Committee's decision.

You will be asked for the following:

- **Title** (please use bold font)
- **Background/Synopsis** – A concise description of your subject matter and prior work in this area
- **Objective/Purpose** – The question your material answers or the hypothesis that it tests
- **Methods** – The experimental design or technique employed
- **Results** – Outcomes & measurements, with statistical significance, if appropriate
- **Conclusion** – Conclusions, clinical pertinence, and value or for Workshops and Presentations, the prevailing point of view
- **Supplemental Materials for Upload** (Optional) – Figure/Tables/Images that support your work
- **Authors** – For each author you must provide first and last name, city and state, hospital or research institution as well as preliminary financial disclosure information. If you would like to be considered for oral presentation, the Primary Author should also upload a brief paragraph describing their qualifications in the chosen subject area and/or a CV. Please include the email addresses of all the listed authors. Submitting authors will be listed as the primary author on the abstract, there will be NO EXCEPTIONS.
- **Proofread** – Make sure to proofread your abstract. Misspellings and typographical errors reflect poorly on your scientific work. Prepare to substitute plain text for special characters as these characters may not be rendered reliably (i.e., plus or minus for \pm , alpha for α etc.)

ABSTRACT SUBMISSION TOPICS

The abstract must be related to an appropriate topic in the field of clinical lipidology, atherosclerosis and cardiovascular disease prevention. Abstract authors are required to indicate which topic BEST matches the content of their abstract. The following are topics for the APSAVD scientific sessions.

- Clinical Applications of Biomarkers, Lipoprotein Testing
- Diabetes, Insulin Resistance and Dyslipidemia
- Enhancing Adherence, Compliance to Therapies
- Epidemiology of Cardiovascular Disease
- Genetics, Gene Therapy and Atherosclerosis
- HDL Modification, Novel HDL Raising Therapies
- Hypertriglyceridemia
- Imaging in Atherosclerosis
- Lipid Management Best Practices (clinic operations, lipid team approaches, outcomes research)
- Lipid Management in Special Populations
- Management of Statin Intolerance
- Nutrition, Nutrigenomics, Nutraceuticals and Exercise Therapies
- Pathophysiology of Atherosclerosis
- Pharmacological Control of Lipids and Lipoproteins
- Visceral Obesity, Metabolic Syndrome and Atherosclerosis

Important Dates

Abstract Submission Deadline

Friday, December 29, 2017, 5:00 PM

Abstract Acceptance Notification

Monday, January 8, 2018

GENERAL INFORMATION AND POLICIES

- The lead author must register for the 2018 APSAVD Scientific Sessions to ensure his or her abstract(s) are included in the abstract publication and website. Deadline for author registration is January 31, 2018. Lead authors **MUST BE** registrants at the APSAVD 2018 Annual Convention. The LEAD authors who are members of APSAVD are free from the registration fee, non-members should register for the annual convention.
- To submit an abstract, all the authors listed on the abstract must approve the final version. In addition, each author listed on the abstract should have made a substantial contribution to it, such as 1) contributing to the conception and design of the study and the acquisition of data; 2) analysis and interpretation of the data; and/or 3) drafting the poster and/or revising it critically for important intellectual content. Full disclosures must be provided for each author. These requirements are taken seriously by APSAVD and any failure to fully comply with these requirements may result in an abstract being withdrawn from the abstracts program.
- It is the responsibility of the lead author to ensure that his or her abstract is submitted correctly.
- Abstracts will be reviewed by the members of the Research Committee, who will then decide which ones are for oral or poster presentation.
