

The 31st International KOGO Annual Conference

2022. 9. 15^(Thu) – 9. 16^(Fri)

📍 Sejong Convention Center, Sejong University, Seoul, Korea

Frontiering genomics beyond the pandemic

Pre-Registration: 2022. 7. 11^(Mon) – 2022. 8. 5^(Fri)

Abstract Submission: 2022. 7. 11^(Mon) – 2022. 8. 5^(Fri)

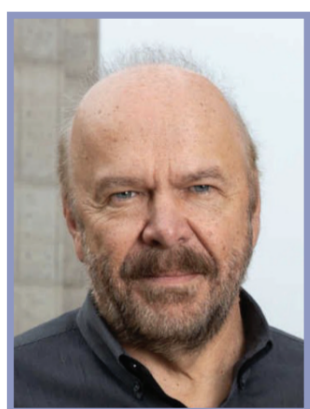

Young Scientist Session Registration: 2022. 7. 11^(Mon) – 2022. 8. 5^(Fri)

Plenary Lecture

Cell atlases as roadmaps in health and disease

Aviv Regev
(Genentech Research and Early Development)

Epigenomic Landscape of the Mammalian Brain at Single-Cell Resolution

Joseph R. Ecker
(Howard Hughes Medical Institute and The Salk Institute for Biological Studies)

Gastric Cancer beyond Gene Mutations: Single-cells and Epigenomes

Patrick Tan
(Duke-NUS Medical School)

Symposia

- Single Cell Genomics
- Medical Genomics
- GWAS on complex diseases using the Korea Biobank Array
- Young Scientist Session
- Viral Genomics
- Plant Genomics
- Epigenomics
- Cancer Genomics
- Immuno-Genomics
- Microbiome
- Complex Disease Genomics
- New Technologies in Genomics
- Non-coding RNAs and Epitranscriptomes
- Bioinformatics and System Biology
- Lessons from the pilot project of the National Bio Big Data
- Advances in Omics Technology
- The PPF (Past, Present and Future) of Genome Research

Program

- Plenary Lecture
- Symposia
- Unbong Kang Hyen Sam Award Lecture
- Poster Viewing
- Young Scientist Session
- Luncheon Seminar
- AWS Education Session
- Closing Ceremony & Awards
