Giuseppe Danilo Norata (University of Milan, Italy)

Giuseppe Danilo Norata, Prof, PhD, is Professor of Pharmacology at the Department of Pharmacological and Biomolecular Sciences and Coordinator of the Doctorate School of Experimental and Clinical Pharmacological and Biomolecular Sciences at the University of Milan, Italy. He held the positions of Adjunct Professor, School of Biomedical Sciences, Curtin Health Innovation Research Institute, Curtin University, Perth, Western Australia (2016-2018) and of Honorary Senior Lecturer, The Blizard Institute, Barts and The London, School of Medicine & Dentistry Queen Mary University, London (2012-2015). Previously he was Post-Doc at Atherosclerosis Research Unit, Karolinska Hospital, Karolinska Institute, Stockholm, Sweden (2002-2004). His research activity is devoted to the investigation of molecular mechanisms involved in vascular and cardiometabolic diseases and their connection with immunometabolism from a translational perspective. He is the Head Laboratory of Laboratory of Pharmacology of Cardio ImmunoMetabolic Disorders. He serves as Editor for Cardiovascular Research and for Atherosclerosis and a member of the editorial board of Atherosclerosis Thrombosis and Vascular Biology (ATVB). He published more than 240 papers in the field of lipids and lipoprotein metabolism, atherosclerosis and immunometabolic diseases. He is Chair of the EAS Congress Committee and a member of the Nucleus of the AVB Working Group of the European Society of Cardiology.
